

Our Whistleblower System

Complying with statutory regulations and internal rules, and the principles laid down in our Code of Conduct and the Code of Conduct for Business Partners, has top priority at AUDI BRUSSELS. The success of our company is based on Integrity and Compliance. **To meet these standards, it is important to learn of potential employee or supplier misconduct and to put a stop to it.** Therefore, we entrusted the Central Investigation Office or Audi to operate an independent, impartial and confidential Whistleblower System on our behalf.

A key pillar of our Whistleblower System is the principle of procedural fairness. It also guarantees the greatest possible protection for whistleblowers, persons implicated and employees contributing to the investigation of reported misconduct.

This also includes offering opportunities for anonymous reporting and communication. We assure not to perform any steps in order to identify anonymous whistleblowers, who do not misuse our Whistleblower System. Retaliation of whistleblowers and all persons who contribute to investigations at AUDI BRUSSELS will not be tolerated. Persons implicated are presumed innocent until the violation is proven. Investigations will be conducted with the utmost confidentiality. The information will be processed in a fair, fast and protected process.

How do we process your report?

The qualified and experienced colleagues at the Investigation Office examine every report for potential misconduct by a Volkswagen Group employee thoroughly and follow it up systematically. First, you will get a confirmation of receipt. The Investigation Office then assesses your report. This includes gathering facts particularly from the whistleblower. Only if this initial evaluation shows grounds for suspicion of a violation an investigation by a dedicated Investigating Unit will be started. Afterwards, the results of the investigation will be assessed by the Investigation Office and appropriate measures will be recommended. Information about the status* and the outcome of the procedure will be given to you without undue delay.

Potential violations of the Code of Conduct for Business Partners by suppliers, including serious risks and violations of human rights and environment by direct and indirect suppliers, can also be reported to the Investigation Office - as well as reports requiring otherwise immediate action. The Investigation Office will inform the responsible departments, who will process the issue accordingly. This particularly includes taking the necessary measures to minimize or end violations and/or risks.

** The processing time varies depending on the subject of the procedure*
